Click on save, the camera will automatically restart. Back to the gotocamera website background, refresh the page, you can see status of your camera.

The screenshot shows the GotoCamera website interface. The top navigation bar includes 'Cameras', 'Recordings', 'Account', 'Share', 'Auto Record', 'Download', 'Buy', and 'Help'. The 'Cameras' tab is highlighted with a red circle. Below the navigation bar, there is a section for 'IPCAM' with a play button icon. To the right of this section are three icons: 'RECORD', 'SHARE', and 'CONFIG'. A red arrow points from the 'Cameras' tab to the 'IPCAM' section with the text: 'Cameras are bound gotocamera account, restart, after refreshing the page you can query to the network on the Web camera'. Another red arrow points from the 'CONFIG' icon to the 'IPCAM' section with the text: 'Sets the camera on the gotocamera feature'. The main content area shows a live video feed of a camera. Below the video feed are three circular icons: a play button, a camera icon, and a camera icon with a checkmark. A red arrow points from the play button icon to the text: 'On a Web page can do real-time monitoring'. Another red arrow points from the camera icon with a checkmark to the text: 'Take pictures'.

Also can according to their own preferences, set up the camera function

The screenshot shows a dialog box titled 'Setup Auto-Record for IPCAM'. The dialog box has a close button (X) in the top right corner. The text 'I'd like to record' is followed by two radio buttons: 'image' (selected) and 'video clip'. Below this, there are two input fields: 'From' with the value '01/08/2013' and 'To' with the value 'Optional'. Below these, there are two radio buttons: 'everyday' (selected) and 'the following days of the week:'. Below this, there are two radio buttons: 'once per day' (selected) and 'repeatedly'. Below these, there is an 'At' label followed by an input field with the value '09:20'. At the bottom right of the dialog box, there are two buttons: 'OK' and 'Cancel'.

You can also share with friends, it can send picture or video to someone who you want to share with.
